

InnoVia IDX Solution

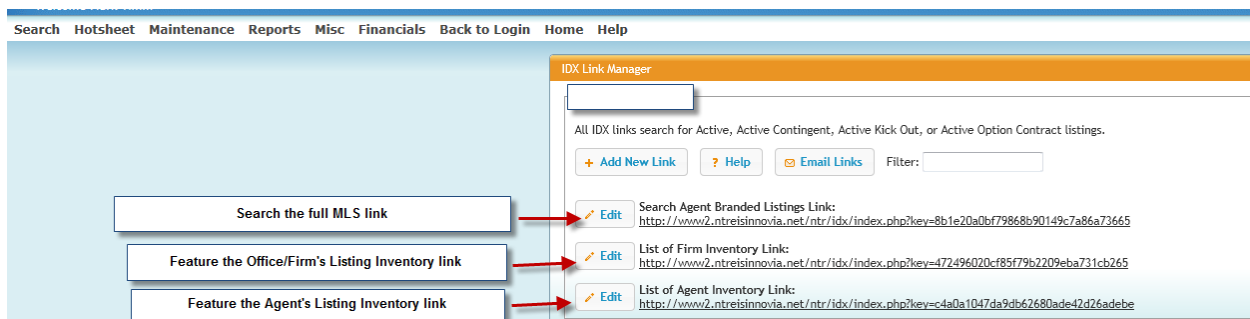

You will learn how to:

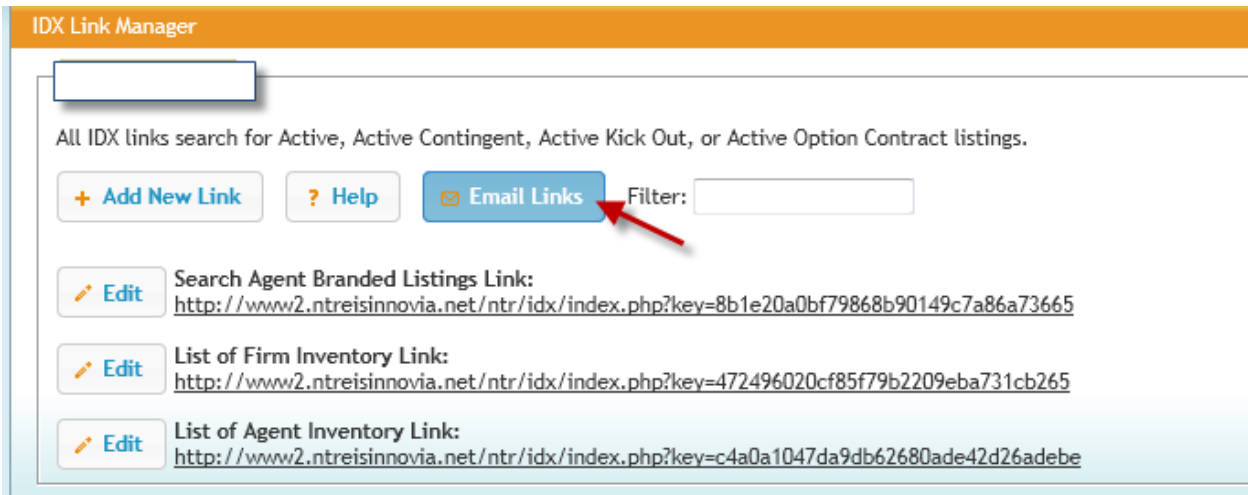

- Create IDX links and generate email

Your REALTOR® Association can provide more support/training. [Contact your Association](#)

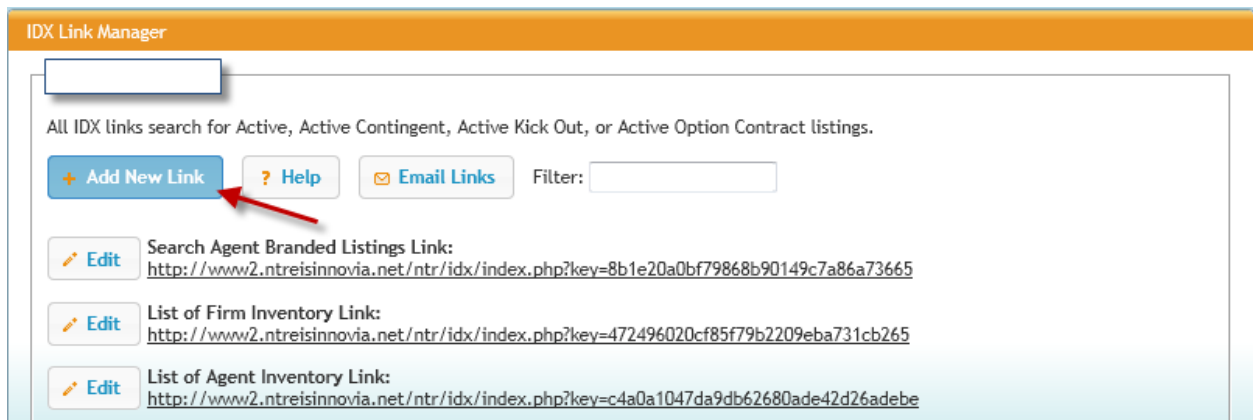

Log into NTREIS InnoVia –under Maintenance (as an agent) - Choose IDX Link Manager.

If your broker has given permission for agents to use the IDX link you will go to the set up page for the IDX. (If the broker has not please contact your broker to allow the links to be generated by the agent) The standard links will be available to edit, add a new custom link or email.

When emailing the links, the links will automatically go to the email in the membership roster and be sent directly to the agent. The agent may then forward to the web designer to be framed within an existing website.

To Add New Link the agent must first create a custom link in InnoVia and then access it to be added to the IDX links.

Step 1:

Choose List of Agent Custom Saved Search

IDX Link Manager

Add/Edit IDX Link

Remember to save your links before leaving this page.

Type of link: Search Agent Branded Listings (dropdown menu open)

Link name: (optional)

Page layout: List of Agent Custom Saved Search (highlighted)

Theme: List of Board Open House Inventory, List of Firm Open House Inventory, List of Agent Open House Inventory, List of Recently Added Listings (20 days back)

Center Map Point: (Drag the pushpin to where you want the center to be) [Reset to Default](#)

Step 2:

You may Name the search you have chosen for the IDX custom feature. Then choose from the Saved Search list the search previously created in InnoVia for the IDX.

IDX Link Manager

Add/Edit IDX Link

Remember to save your links before leaving this page.

Type of link: List of Agent Custom Saved Search

Link name: IDX Lake front property (optional)

Saved search: Custom IDX Plano (Residential, 7)

Theme: Black

[Save](#) [Preview](#) [Delete](#) [Cancel](#)

Step 3:

Save the search and you will then be able to email to yourself. (Forward the email to your webdesigner).

IDX Link Manager

All IDX links search for Active, Active Contingent, Active Kick Out, or Active Option Contract listings.

Center Map Point: (Drag the pushpin to where you want the center to be) [Reset to Default](#)

The map shows the Dallas metropolitan area with major highways and city names. A red arrow points to a pushpin located in Irving, Texas. The map includes labels for cities like Arlington, Grand Prairie, and Dallas, as well as highways like I-30, I-35E, and I-75. A scale bar at the bottom right indicates 2 miles and 5 km.
